Skills

User-facing

- Javascript, Typescript,
- React, WebGL, Unity,
- CSS and preprocessors,
- UI/UX design.

Business logic

- Python, Java,
- SQL databases,
- Document stores,
- C++, Testing.

Operations

- Airflow, Jupyter, DBT,
- AI, Machine learning,
- Google Cloud, Docker,
- Linux, Kubernetes.

Languages English (Fluent), Slovak (Native), Czech

Last notable project

2024 Na medicínu, Internal system for a study course, & namedicinu.cz.

An application where students can find all necessary materials in one place, practice, and watch lectures. While giving lecturers quantitative data about what topics need to be covered better.

- Lecture recordings,
- Flashcard training,
- User analytics,

- Video encoding and streaming,
- Generating quizzes for testing,
- Lecturer insights about students.
